

Welcome to Harrington

- A proposed new 21st century sustainable community with all the best attributes of a traditional market town
- Everything in place for residents to lead a healthy, low carbon lifestyle in a vibrant and enterprising new community
- Applying principles of One Planet Living®
- Working side-by-side with the local community to co-create a Vision for Harrington
- A place which is full of life and designed to meet the needs of South Oxfordshire

The location

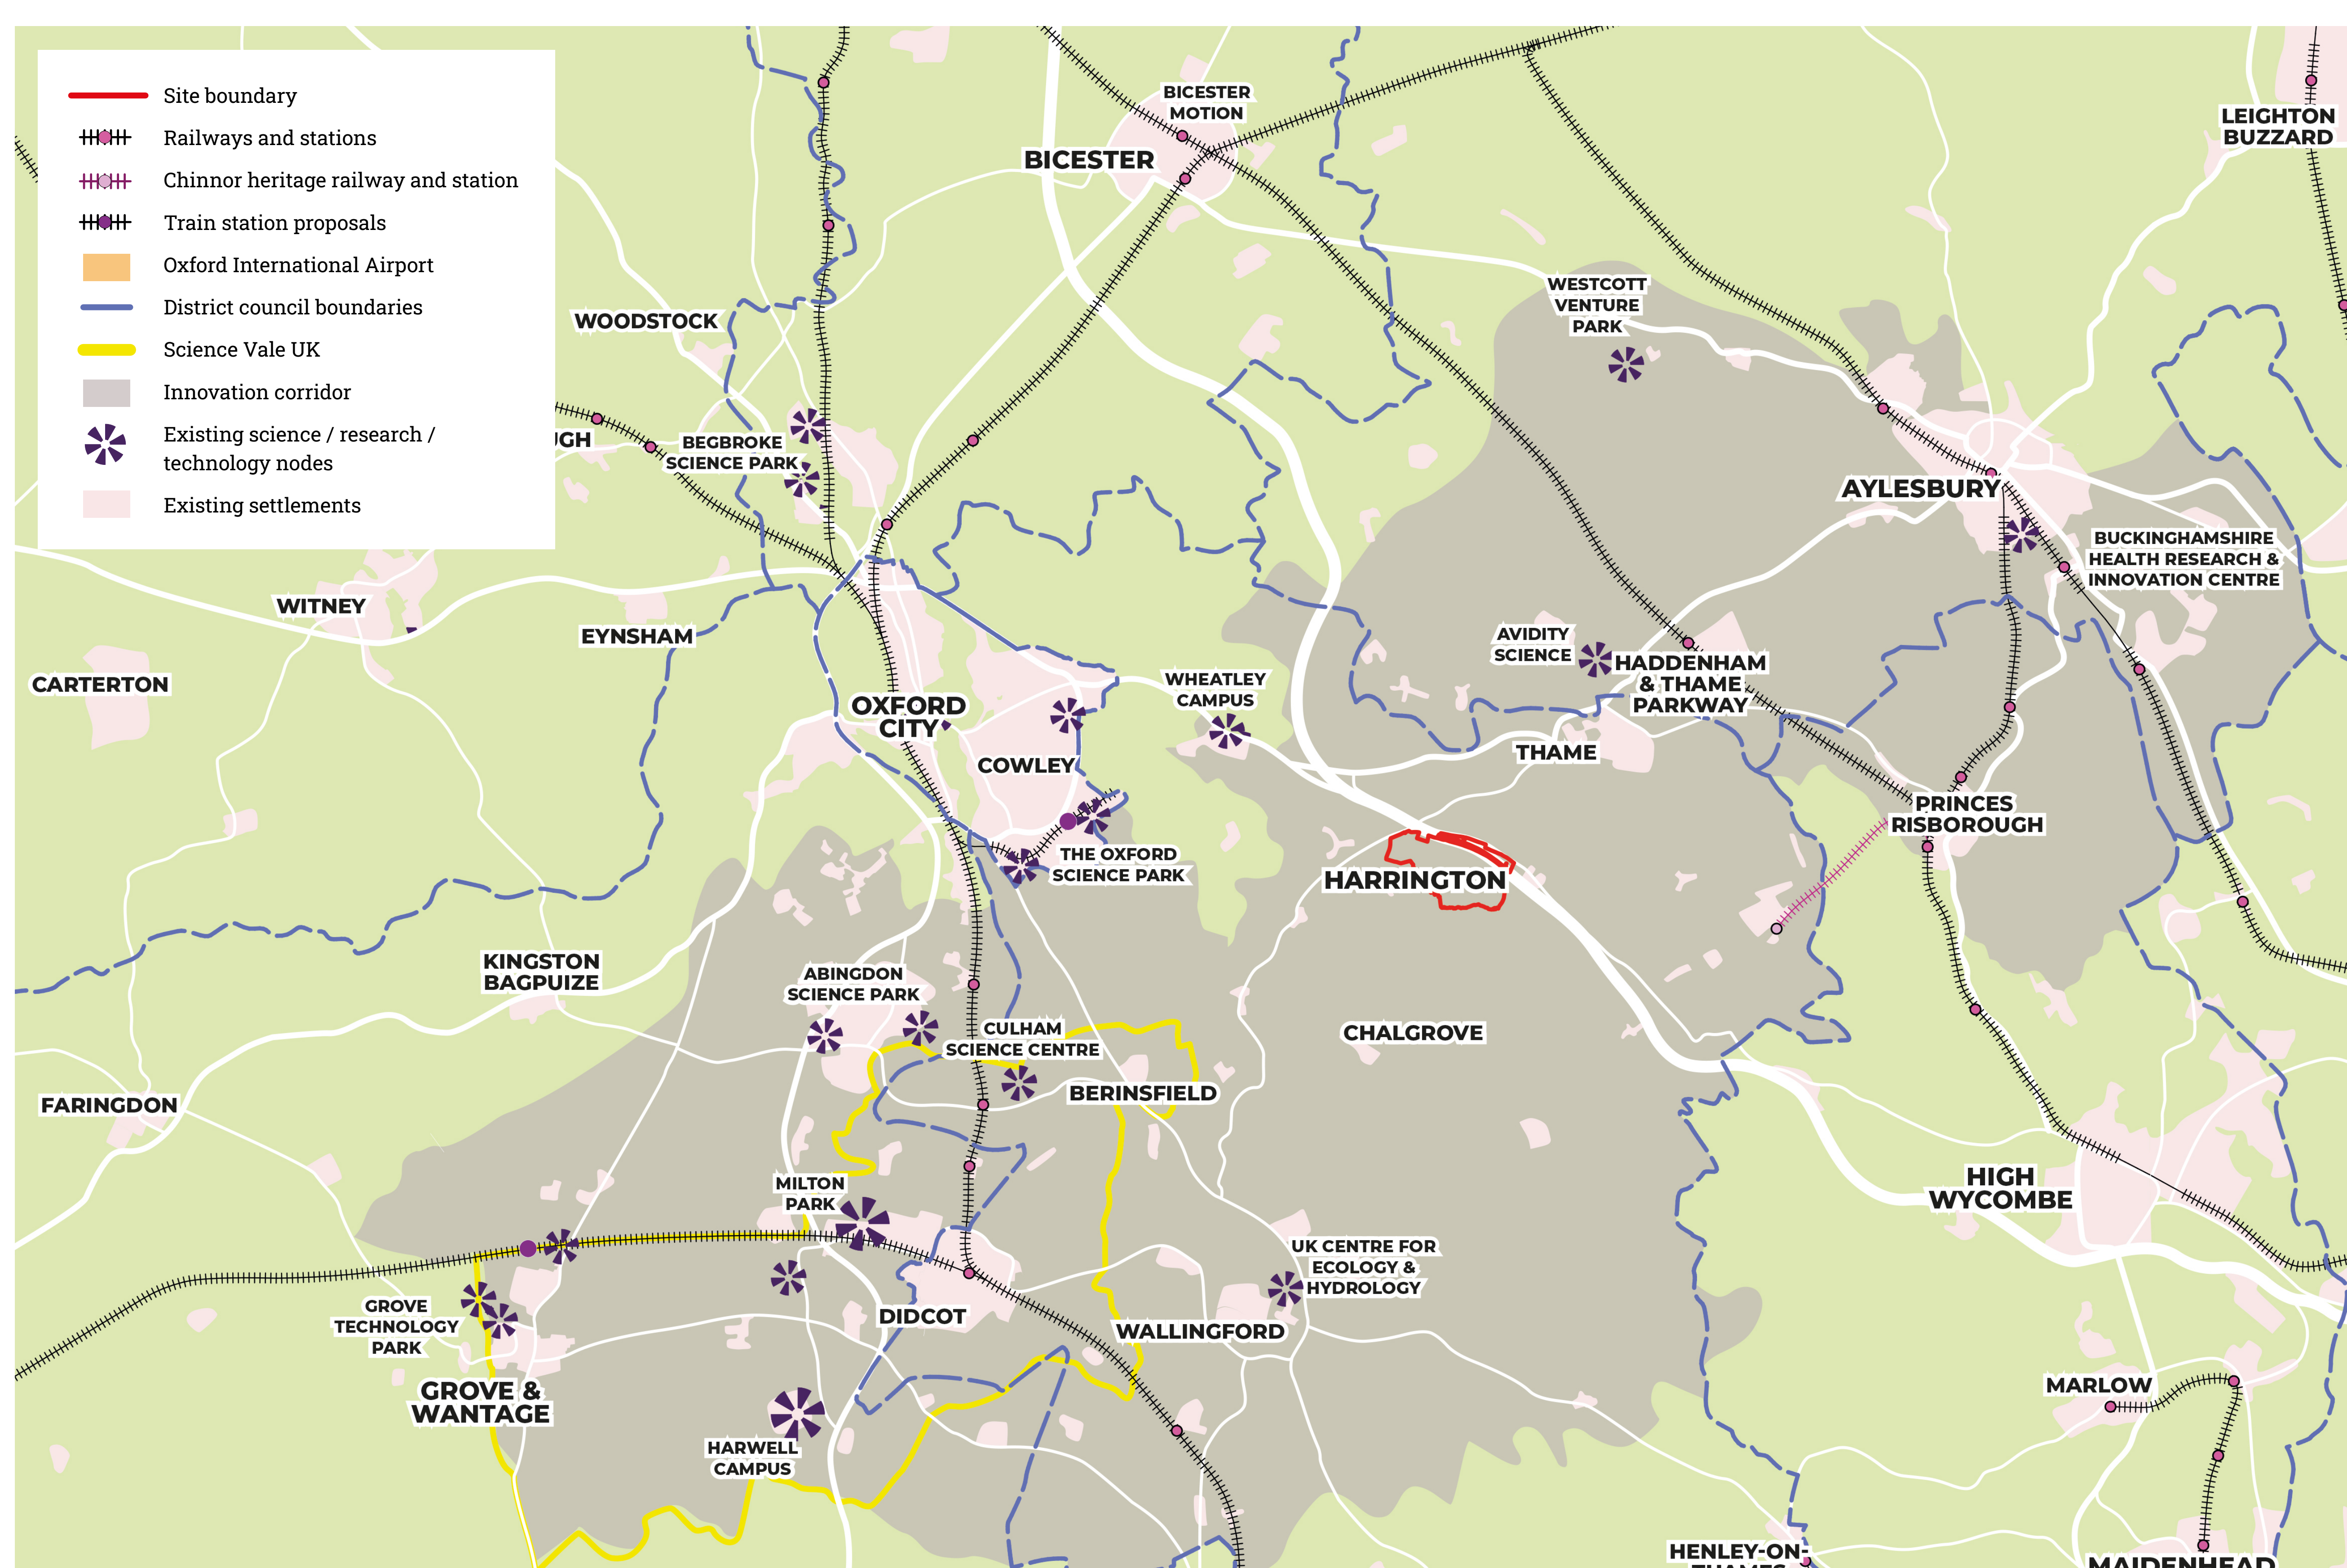

Situated to the south of the A40 and in close proximity to Junction 7 of the M40.

Neither in the Oxford Green Belt nor the Chilterns AONB.

Sustainable amenities and homes for South Oxfordshire, without contributing to urban sprawl around existing communities.

A catalyst for enhanced connectivity across the Oxfordshire-Buckinghamshire “Innovation Corridor” from Grove & Wantage in the west to Aylesbury in the east, linking up with science and innovation destinations including Harwell Campus, Culham Science Park and Westcott Venture Park.

Key priorities

Climate change and nature recovery

Improving connectivity for rural communities

High quality homes in affordable places

Creating the jobs and work environments of the future

Protecting and enhancing local heritage

Creating strong and healthy communities

The 10 One Planet Living principles

One Planet Living® | A framework by Bioregional

1. Health and happiness
Encouraging active, social, meaningful lives to promote good health and wellbeing.

2. Equity and local economy
Creating safe, equitable places to live and work which support local prosperity and international fair trade.

3. Culture and community
Nurturing local identity and heritage, empowering communities and promoting a culture of sustainable living.

4. Land and nature
Protecting and restoring land for the benefit of people and nature.

5. Sustainable water
Using water efficiently, protecting local water resources and reducing flooding and drought.

6. Local and sustainable food
Promoting sustainable, humane farming and healthy diets high in local, seasonal organic food and vegetable protein.

7. Travel and transport
Reducing the need to travel, encouraging walking, cycling and low carbon transport.

8. Materials and products
Using materials from sustainable sources and promoting products that help people reduce consumption.

9. Zero waste
Reducing consumption, reusing and recycling to achieve zero waste and zero pollution.

10. Zero carbon energy
Making buildings and manufacturing energy-efficient and supplying all energy with renewables.
